EDUCATION & ACADEMIC HONORS

Indiana University, Luddy, Kelley, and Maurer Schools – Bloomington, IN 05/10/2026
Master of Science in Cybersecurity Risk Management (Full time) GPA: 3.87/4.00

General Information: Technical and Law Concentrations, CyberCorps SFS Scholar

Indiana University, Luddy School of Informatics, Engineering, and Computing – Bloomington, IN 05/05/2024
Bachelor of Science in Computer Science (Full time) Final GPA: 3.98/4.00

Minors: Cybersecurity, Math

General Information: Accelerated 3 Year Graduation, Hutton Honors, Department Honors, Summa Cum Laude

EXPERIENCE

The Library of Congress– D.C., Washington 06/01/2026 – 08/07/26
Chief Information Officer Office Internship [Full time, 40 hr week]

City of Bloomington ITS Department – Bloomington, IN 05/19/2025 – 07/25/25
Cybersecurity Compliance Specialist [Full time, 40 hr week]

- Worked on a project to bring the City of Bloomington into compliance with IN SEA 472, providing documentation and policies for cybersecurity and tech resources, interpreting the law and providing practical consultation.
- Worked to compile cybersecurity standards and guidelines for municipalities and evaluate City of Bloomington measures.

IU Civic Leaders Learning Center – Bloomington, IN 08/06/2024 – 5/10/2025
Graduate Assistant [Part time, 15 hr week]

- Acted as the chief assistant to the Associate Director and helped manage 100+ students in both academic and residential affairs, reviewing applications, grading papers, processing program proposals, and overseeing 10 student mentors.
- Fully developed soft skills and managed levels of student leadership, learning to effectively run the entire center ad hoc.

IU Athletics IT Department – Bloomington, IN 08/21/2021 – 04/10/2024
Senior Intern [Part time, 13 hr week]

- Managed and headed the building, sorting, and distribution of 100+ new end user machines, requiring multiple security updates, extensive machine testing, and on demand system evaluation.
- Provided routine technical assistance daily to employees spanning multiple departments, including software repair, upgrades to hardware (including highly specialized machines), and emergency machine replacement.
- Assist upper-level network, security, and inventory administrators by providing database management, onsite support, and office organization.

Fermilab National Laboratory – Batavia, IL 06/05/2023 – 08/05/2023
GlideinWMS Developer Intern [Full time, 40 hr week]

- Worked onsite at the national laboratory on a developer project with a mentor on GlideinWMS – a work management software. Collaborated on the implementation of a tracing system to track job manager information as it moves through the front end, factory, and final worker node.
- Attended cybersecurity, AI, machine learning, and physics lectures by physicists, programmers, government officials, and professors from national labs and universities across the world.
- Participated in the DOE's Omni Program, specializing in Computing and Cybersecurity, and culminating in a week-long series of presentations and competitions/hackathons in Washington D.C.

Wagner Meinert LLC – Fort Wayne, IN Summers (05/05 – 08/16) 2019-2021
Assistant to IT Director [Full time, 35 hr week]

- Helped office employees and engineers in trouble shooting IT problems and providing hardware service.
- Set up and installed a network of both 20 new printers and over 50 new phone hardware and software setups.
- Pen tested all employee Microsoft accounts and compiled the results into an easy to analyze dataset.
- Organized and updated a database of ethernet connections, IP addresses, and network devices throughout the building.

TECHNICAL SKILLS

Certifications: *ISC2 Certified in Cybersecurity (October 2025)*

Languages/Platforms: Python, Java, JavaScript, C, Visual Basic, Bash Scripting, UNIX/Linux, Microsoft Windows 7-11, Mac-OS

Hardware: Dell Workstations/Laptops, Lenovo Workstations/Laptops, Apple Workstations/Laptops/Tablets/Phones, network switches, servers, routers

Web Development: HTML, JavaScript, CSS, SQL, Apache, Nginx

Design/Security: Adobe Illustrator, Photoshop, Premiere, Microsoft Suite, Github, VMs, Wire Shark, Nmap, Zap, Ghidra

RELEVANT COURSEWORK

CYBER DEFENSE COMPETITIONS

- Practiced real malware attacks against test virtual machines throughout multiple labs, executing malicious software ranging from webserver denial of service to SQL injections and SYN Floods whilst also developing and practicing countermeasures.
- Worked closely with a team to create a final project wherein we developed a AI agent capable of completing a successful attack on its own provided with tools/functions, executing 4 consecutive stages of attack targeting specific user account access.

TRUSTWORTHY MACHINE LEARNING

- Explored the modern vulnerabilities, threats, and safeguards for machine learning and AI, focusing on the construction of modern LLMs and NLP and how they are explained and understood.
- Practiced adversarial attacks on our own constructed machine learning models, revealing vulnerabilities in algorithms and datasets whilst practicing attack methods and defenses, manipulating model robustness and accuracy.
- Researched modern adversarial attack methods and vulnerabilities in machine learning models, compiling and presenting information in class as well as finishing with a survey paper on the relationship between adversarial attacks and XAI.

CYBER RISK MANAGEMENT CAPSTONE

- Working on a team advising the Indiana Executive Council on Cybersecurity regarding comparison of state laws and policies. Additionally developing effective public service announcements combatting pervasive cybersecurity risks.
- Completing a case competition for CRA where we work as a team to analyze logs and additional data from a ransomware attack and produce a report for the executive board with analysis and recommendations.
- Acting as members of mock National Security Council in a simulated scenario prepared and run by the Council on Foreign Affairs.

VOLUNTEER ACTIVITIES/INTERESTS

Aspen Institute – Washington D.C., Online

07/11/2025 – Present

Aspen Digital Cyber Civil Defense Emerging Leader

[Part time, 7 hr week]

- Attending workshops and presentations with fellow developing leaders in public cybersecurity about state and local government, policy making, national defense, and critical infrastructure.
- Writing memos and op-eds about ongoing cybersecurity policy issues on local, state, and federal levels.

IU Student Government Congress – Bloomington, IN

08/20/2021 – 04/21/2024

Speaker of the Student Body Congress

[Part time, 10 hr week]

- Campaigned and won election in the Luddy Computing School district three times, reaching out to fellow students for support as well as concerns and problems to address in office, authoring over 20 bills addressing those concerns.
- Practiced management and initiative in fulfilling multiple leadership roles in Congress, including being elected Press Secretary and selected as Student Life and Oversight and Reform committee chair. Finally, unanimously elected to Speaker twice.
- Practiced mediation and communication skills in finding compromises in bills, budgeting, and interbranch relations.
- Studied 500+ pages of legislation, bylaws, standing rules, and past cases to inform current legislative decisions and policies.

IU Men's Ultimate Frisbee Team – Bloomington, Indiana

08/20/2021 – Present

Team Secretary, Safety Lead, Starting O-Line

- Play for the D1 Hoosier Mama's Ultimate Frisbee team, practicing year-round and competing in tournaments across the nation.
- Manage team organization for events, tournaments, membership, community events, and alumni connections.
- Trained in AED and CPR Red Cross certification as well as emergency safety practices.

Luddy Tech Trek – Accra, Ghana

04/15/2023 – 05/07/2023

Exchange Fellow at Young At Heart GH

- Served as a volunteer and exchange fellow for Young at Heart GH, an education technology organization partnering with schools, governments, and other not-for-profit organizations to bring lessons and resources in technology to youth.
- Organized weeklong lessons by setting up tablets, administering surveys, teaching Scratch, and the Anase Hub App.
- Lived with a host family and shared cultural insights, creating friendships with students, family members, and volunteers.

Lauren McRobbie Serve IT Clinic – Bloomington, Indiana

01/15/2023 – 05/05/2023

Technical Project Manager and Teach IT Teacher

- Created, managed, lead, and completed a capstone project building out a toy cabinet for teaching interns to use at onsite locations, developing a ticket and hardware tracking/management software along with general policies and guides.
- Enrolled in the Teach IT branch of Serve IT, a clinic that provides IT support through teaching, cybersecurity, website management, and hardware recycling to non-profit organizations in the local community.
- Taught lessons about introductory Python courses, AI concepts and tools, phishing, and web design to youth and seniors.
- Worked with a teaching team at the Crestmont Boys and Girls Club and was awarded their 2023 Club Volunteer Award.
